

Lights Out! at Plum Creek Park

Sunday, 10/19/25 7pm-8:30pm

Free event - all ages welcome

Darkness is something not a lot of people are comfortable with. But for our nocturnal native animals, it is essential for survival. Encroaching light pollution into their habitats creates challenges for them. Join us as we discuss bats, migratory birds, and other creatures of the night that would greatly benefit from our willingness to flip the switch and turn out the lights.

- **Educational presentations**
- **Activity options including:**
 - **Night hike in the park**
 - **Nocturnal animal bingo**
 - **Night sky viewing**
- **Bring flashlight for Lights Out experience**
- **Pavilions available for inclement weather**
