MEMORANDUM DIVISION OF ENGINEERING

City of Kent Department of Public Service

DATE:

April 2, 2009

TO:

Dave Ruller
Linda Copley

FROM:

Jim Bowling

SUBJECT:

Spaulding Drive Bridge Replacement – Grant Funding Appropriations

Dave and Linda,

I am requesting council time in April, 2009 to request from council a revision to the Capital Plan to include an additional \$463,000 in reimbursements and \$463,000 in the budgeted costs. In addition, we will be requesting to appropriation authority for the \$463,000.

The reason for this request is to correctly account for the City receiving the \$463,000 in assets being constructed as part of the Spaulding Drive Bridge Project. The current capital plan did not include appropriations or reimbursements for the grant money to be received from the State Municipal Bridge Program. This is a procedural requirement and has **NO NET IMPACT** on the capital plan or budget.

C: Gene Roberts
John Mockler

Ward Comments/Outcome	Tenants are utilizing the sideyard for parking. They are also driving over the uncut curb and over the public sidewalk. Resdients have been warned several time without success in getting the problem resolved. Spoke with property owner personally and via e-mail with suggestions on how to resolve the problem.	Building was vandalized and covered with graffiti. Notice was sent reganding the Kent Ordinance.	Building was vandalized and covered with graffiti. Notice was sent reganding the Kent Ordinance.	Alley next to Firefly is filled with garbage and especially bad in stairway leading to basement of Firefly. Spoke with employee at owner's business and advised this mess needs to be cleaned up. Employee asked whose responsibility it was the tenant or business owner. She was advised it is the ultimate responsibility of the property owner. She asked us to send a letter so they can take it to their tenant.

CITY OF KENT, OHIO

DEPARTMENT OF SAFETY

To: Mr. Ruller

Mr. Bowling Mr. Giaquinto Mr. Locke Chief Peach Mr. Roberts Chief Williams

From: William Lillich

Subject: Traffic Engineering & Safety Meeting of March 27, 2009

TE&S 2009-02

Report Date: March 30, 2009

- The committee gave further consideration to the Fairchild/Silver Meadows traffic concerns during Spaulding Dr. bridge construction. Additional information was offered for further on-going review, including the previous speed data from the Stone Water Dr. analysis, traffic crash reports from 2008, the baseline February traffic counts and delay study, and the request for future radar speed monitoring specific to the Silver Meadows. This information will enable the Engineering Division to consider the actual impact when the construction begins, and will possibly provide for some determination of impact of the elimination of through traffic during the bridge closing.
- 2. The committee discussed the schedule of major road construction work that is likely to impact traffic in and around the city this summer. This includes:
 - a. Spaulding Bridge May through November, 2009
 - SR261 bridge maintenance, closing traffic in both directions between Mogadore Rd. and Franklin- The project will begin at the completion of the Middlebury Rd bridge project, (approximately June 1) for a period of 60 days.
 - c. Brady Lake Rd. bridge- Scheduled to begin June 1 through December, 2009.
 - d. Lakewood Rd. bridge near Hommon Ave. Unknown period
 - e. City street program- No significant road closings will result from this year's program.

Additional project updates are maintained on the city's web site by going to the Engineering Division page under **City Departments**, then identifying the specific project of interest.

The committee reviewed issues pertaining to the engineering signalization study and the Depeyster/Haymaker traffic signal. The potential exists for the mandatory removal of this signal since it currently fails to meet warrant standards. The committee expressed concern over the possible removal of the signal due to the lack of proper sight distance on the north side of the intersection, the current emergency service need, and the potential change of conditions as development takes place in

the immediate area.

A lengthy discussion ensued, which included considerations of potential development, variable timing, future traffic loading, KSU design access, and sight distance improvement.

Subsequently the committee proposed that the Engineer confer with the consultants on the project with the suggested recommendation "that the signal be decommissioned, and be replaced with a full emergency signal with Opticom capabilities."

"Full emergency signal" in this context includes equipment controls capable of proper signal-to-lane mounting and full signal and Opticom activation.

4. The committee generally discussed the potential issues for the potential sites of the Joint Safety building in this same area.

No formal City Council action was required as a result of this meeting.
